

SCOPICO

TECHNOLOGY LEADERSHIP & DELIVERY ADVISORY

Skopje, North Macedonia
Remote: US · UK · EU

Architect stronger systems. Lead teams that deliver.

Fractional CTO and technology advisory for founders and engineering organizations building new systems, strengthening architecture and scaling software delivery.

Senior direction, without a full-time hire.

From blank page to production: clarify architecture, team structure and the path to execution.

WHAT SCOPICO DELIVERS

01

Fractional CTO & technology advisory

Senior guidance on technology strategy, priorities and delivery decisions for founders and engineering leaders navigating growth or change.

02

Solution architecture & reviews

Architecture for systems built from scratch, plus independent reviews of structure, risk, scalability and modernization priorities.

03

Dedicated development teams

Scopico assembles and leads vetted developers from a trusted professional network, with the structure, standards and delivery rhythm to execute reliably.

04

Development management & SDLC improvement

Improve planning, estimation, code review, QA, CI/CD, releases, team rituals and delivery metrics through diagnostics, fractional management or recovery leadership.

Adopt AI-assisted development without losing control

Scopico helps engineering organizations integrate AI into how teams plan, code, review and deliver software. The focus is leadership and operating practice: useful context, clear standards, responsible review and team ownership - not building AI or machine-learning systems.

Review & governance

Enterprise depth behind the advice

13+

years in software development

15,000

peak users on a load-balanced enterprise platform

6 + 2

developers and testers led

Global

multinational remote-team environments

Dev-lead proof: enterprise platform delivery at scale.

Enterprise stack: Azure, .NET Core, Angular and MSSQL.

Industry depth: banking, insurance, SCADA, telecom and automotive.

Ways to engage

Advisory session

Decide a critical issue.

Architecture review

Expose risk and priorities.

Fractional partnership

Get ongoing senior direction.

Dedicated team

Build and lead a delivery team.

Availability & conflict policy

Scopico serves US, UK and EU clients. To protect confidentiality and avoid conflicts, it accepts one active client per industry at a time. Consulting hours are Monday-Friday, 17:30-20:00 CET, with Saturdays by arrangement; full-time offshore or outsourced engagements may be considered.
